

PROJECT : OYSTER GREENMOUNT CITY, INDORE

Innovative Shading Solutions Engineered for Architectural Excellence

Icon Tensile and Tent Structures

a venture of Icon Interiors and Exteriors

Tensile Structures • Tents • Stretch Ceilings • Awnings & Canopies

About Us

Icon Tensile & Tent Structures is engaged in the designing, manufacturing and installation of **Fabric Structures** including tensile fabric structures & tents. Established by a team of experienced architectural and structural designing & Roofing Fabrication experts, we are counted amongst top roofing contractors for **Tensile Membrane Structures**, Clear Span Tents, and canopies in central India.

We work with owners, architects, engineers and contractors to design and build custom tensile fabric structures used to create innovative roofing systems, canopies and skylights. As a turn-key specialty contractor, Icon provides pre-construction assistance; including design assistance, budgeting, construction methodologies and project schedule development.

Our in-house capabilities consist of design, engineering, fabrication, installation and maintenance of tensile structures.

Our Vision

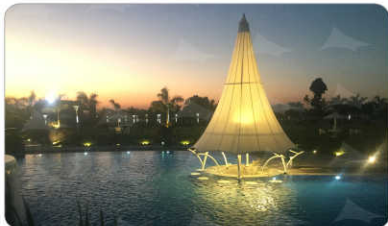

"To achieve excellence in Tensile Architecture by doing world class tensile structure projects with world class designs and standards."

Our Mission

"To develop sustainable projects with efficient designs having functional benefits."
